University of Victoria

McGill Photo

Who would know by this photo that this place is usually filled with dozens of hard-core patrons? But soon this place won't exist, but these women will be staying around, thankfully.

See page 4.

New budget system pays off

UVic has introduced an innovative budget system in which it pays to be thrifty.

At the end of the first year of the new system it's evident that departments and faculties can save money and break an old tradition in the process.

Because faculties and departments were encouraged in January not to go on the traditional year-end spending spree to use up their entire 1976-77 budget allocations, UVic has its highest carry-over of operating funds ever.

The carry-over amounts to \$795,000 of which \$150,000 resulted from increased revenues with faculties and departments

(continued on page 2)

Pay hikes set for faculty staff

Pay increases to faculty, administrative professionals, specialist instructors and to outdoor workers were approved for 1977-78 at the June meeting of the Board of Governors.

The increases will be effective July 1, except for the outdoor workers, whose will be retroactive to April 1.

Faculty will receive a 6.8 per cent hike in salary and benefits and be eligible for another 3.24 per cent in merit awards, for a maximum total of 10.04 per cent in increased income.

Administrative professionals will get a 6 per cent pay raise plus 4 per cent in satisfactory and special performances increases for a total of 10 per cent. Specialist instructors will receive the same 6 per cent across-the-board increase, but a higher performance amount of 4.25 per cent for a total of 10.25 per cent.

Local 917 of the Canadian Union of Public Employees (outdoor workers) was granted a straight 6.83 per cent increase, subject to approval from the Anti-Inflation Board.

(continued on page 2)

Student job situation may be easing

There are some indications that the student summer job situation may not be as critical as feared.

"We haven't heard as much noise about the lack of jobs as we did last year," said Brian Gardiner, Alma Mater Society president.

He also noted that figures compiled at the end of May show that out of 1,000 students registered for work about half had found jobs.

"Of course, the jobs they do get are not all that hot."

Gardiner added that one factor that seems to be making the job situation better than last year is the lack of unrest in the construction industry.

The AMS will conduct another summer employment survey during fall registration week.

When students come to pick up their

library cards they will be asked to fill out a questionnaire on how long they worked during the summer, what type of jobs they had, how much money they made, and so forth.

The AMS will be helped again by Dr. Roy Watson (Sociology) in making the survey.

Gardiner said the AMS is working together with student leaders from other B.C. universities and colleges in drawing up a brief calling for reforms in the student financial aid program administered by the provincial government.

The brief, which will be presented to the Universities Council of B.C., will call for, among a number of recommendations, an overhaul of the present criteria that determine whether a student is eligible for a grant.

At present, eligibility rests largely on the income of a student's family, even if the student is not living with his family or

supported by them.

The brief proposes that a student be eligible if he or she is married, divorced, widowed, living common law (after two years) or has legal dependents, that he or she is over the age of 19 and not living with his or her family and not claimed by the family as an expense for income tax, and not receiving financial support of significant value either in kind or cash from the family.

One of the brief's long-term recommendations is that the whole financial aid program be reconstructed so that the present grant-loan mix be replaced by a straight loan formula. The idea would be to decide the interest rate after graduation and after the loans are tallied up, and would have a subsidization of payments by the government for those whose income is low.

... Budget system

(continued from page 1)

saving \$545,000 compared to \$91,000 in 1975-76.

The increase in savings can be explained by a memo sent to all departments and faculties in January.

In the memo there was a commitment made that if departments or faculties saved money in 1976-77 they could have that money in 1977-78 to spend on non-recurring items such as equipment.

"It's common knowledge that educational institutions and public bodies generally go on spending sprees in the last few months of a fiscal year to use up all their funds," said Bursar Robert McQueen.

"It happens because public bodies are notorious for believing they must spend all the money given to them or they will get less the following year.

"The result is that often the money is

spent on large purchases made solely for the sake of using up funds."

McQueen explained that in the past UVic would carry over funds, but this money was placed in a general contingency fund with the department or faculty concerned getting no credit for individual savings.

"We feel this new system encourages them to save money," he said. The money will go to faculties which spend less than their budget.

It cannot be used to hire staff on a long-term basis but can be spent on equipment, renovations and alterations, short-term appointments or be set aside as a contingency fund.

Dr. Pat McGeer, Minister of Education, is indirectly responsible for the new system of carry-overs being introduced at UVic. McGeer told the universities that they should not make major financial commitments for the following year in their operating budgets.

The fiscal year begins April 1 and the university year begins July 1, so the university is committed to pay salaries between April 1 and July 1.

Universities had to carry part of their budget over to the next year to meet these annualization costs. When they did so McQueen recognized that monies could be carried over for other purposes as well.

"Our new system of carry-overs encourages faculties and departments to save money," said McQueen. "Everybody I've talked to says it's about time this sort of thing was allowed."

As a result of their thrift, academic departments have another \$283,317 to draw on during 1977-78. There was an under-expenditure of \$205,722 in administration and an \$84,403 surplus in plant maintenance.

In a total budget of \$32.5 million for 1976-77 there was a total savings of 2.4 per cent.

"We're asking departments and faculties now to submit proposals for use of this money," said McQueen.

... Pay hikes

(continued from page 1)

Yet to be negotiated for board approval is an increase for Local 951 of CUPE (indoor workers) which is expected to be about 6 per cent, according to Edna Kowalchuk, president of the local.

The Faculty Association had been seeking an 8 per cent pay hike plus a 4.3 per cent boost in increments in its talks with the administration.

Dr. Larry Yore (Education), chairman of the association's negotiating committee, said agreement was reached with the administration on everything except the pay.

(Because the association is not a union, it does not have any formal bargaining power,

but talks do take place to try to arrive at some sort of an understanding.)

Yore said that he expects some concern among faculty over the administration's final offer because inflation in Western Canada will exceed the pay percentage increase and "eat into the increments".

On the other hand, he said, the faculty recognizes the financial constraints that have been put on the university.

"I am sorry to say we were unable to reach total agreement," commented UVic President Howard Petch.

Increases for administrative professionals and instructors are arbitrarily decided and are usually close to faculty raises.

In his reaction to the settlement, Alex Patterson, president of Local 917, said, "we did as well as we could under the Anti-Inflation Board guidelines."

In the package for faculty, the 6.8 per cent increase, the AIB guideline limit, consists of a basic hike of 6.29 plus a .51 per cent raise in the study leave supplement.

Merit pay is divided into two categories, a 2.76 per cent increase in "satisfactory progress increments" available to all who meet departmental performance standards, and .48 per cent in "exceptional performance increments" to be awarded to not more than 5 per cent of the regular, full-time faculty.

Salary floors now stand at \$14,000 for lecturers (compared to \$12,250 in 1976-77), \$17,400 for assistant professors (\$15,550), \$22,175 for associate professors (\$19,775), and \$27,650 for full professors (\$25,250).

Administrative stipends for academic administrators were increased by 6.29 per cent.

Summer Session pay was raised \$165 across the board, which means salaries now range from \$2,465 for lecturers and \$2,765 for full professors.

gazette

The Board of Governors reports the following actions taken on June 24, 1977

Leave of Absence

Alan R. Dobell, director and professor, School of Public Administration, granted leave of absence for the months of July, October, November and December 1977, and James Cutt, professor, School of Public Administration, appointed acting director, School of Public Administration for those same months.

Daniel Koenig, leave of absence changed from June 1, 1977—June 30, 1978 to July 1, 1977—June 30, 1978.

John E. McInerney, associate professor, Department of Biology, leave of absence changed from July 1, 1975—June 30, 1977 to July 1, 1975—June 30, 1979.

Appointments to Executive Development Training Program

The following were appointed as instructors in the Executive Development Training Program for the period September 1, 1977—May 31, 1978:

Frank S. Borowicz; Leonard Laudadio; G. Grant McOrmond; G. Alexander Milton; Neil A. Swainson.

Appointment to WCUMBS Management Council
Arthur Fontaine, professor, Department of Biology, appointed University of Victoria nominee to WCUMBS Management Council, for the period July 1, 1977—June 30, 1979.

Special Appointments

John M. Dewey, professor, Department of Physics, appointed dean of Graduate Studies, effective July 1, 1977—June 30, 1982;

Izzud-Din Pal, associate professor, Department of Economics, appointed acting dean, Faculty of Arts and Science, effective July 1, 1977—June 30, 1978; Donald H. Mitchell, associate professor, Department of Anthropology, appointment as associate dean of the Faculty of Arts and Science extended from June 30, 1977 to July 31, 1977;

Robert D. Armstrong, professor, Faculty of Education, appointed chairman, Division of Communication and Social Foundations, effective July 1, 1977—June 30, 1978; David J. Chabassol, professor, Faculty of Education, appointed chairman, Division of Psychological Foundations in Education, effective July 1, 1977—June 30, 1978; Roger Davidson, associate professor, Department of Mathematics, appointed chairman, Department of Mathematics, effective July 1, 1977—June 30, 1979;

Henry J. Warkentyne, associate professor and acting chairman, Department of Linguistics, appointed chairman, Department of Linguistics, effective July 1, 1977—June 30, 1981;

Malcolm Clark, Ph.D. (New Brunswick), Victoria B.C., appointed visiting scholar, Department of Chemistry, effective June 1, 1977—May 31, 1978; Gerald B. Porter, B.S. (Univ. of Calif-Berkeley), Ph.D. (Univ. of Southern Calif.), Vancouver B.C., appointed visiting scholar, Department of Chemistry, effective August 1, 1977 to June 30, 1978; Wee Chong Tan, Ph.D. (Indiana Univ.), Victoria, B.C., appointed visiting scholar, Department of Chemistry, effective July 1, 1977 to June 30, 1978; David J. Leeming, associate professor, Department of Mathematics, appointed faculty advisor, Advising Centre, Faculty of Arts and Science, effective Aug. 8, 1977—Sept. 9, 1977;

Orville S. Elliot, associate professor and chairman of the Department of Anthropology, appointed faculty advisor, Advising Centre, Faculty of Arts and Science, effective July 4, 1977—August 5, 1977.

New Appointments—Administrative and Academic Professional

John Driscoll, editorial assistant, Department of Community Relations, appointed publications editor, Department of Community Relations, effective July 15, 1977;

Betty J. Gibb, B.A. (Michigan State), M.L.S. (Washington), Sidney, B.C., appointed general librarian, McPherson Library, effective July 1, 1977;

James F. Helme, B.A.Sc. (Brit. Col.), P. Eng., Vancouver, B.C., appointed director of Buildings and Grounds, effective Aug. 1, 1977;

Sandy H. McElroy, B.A. (San Francisco State Univ.), M.Ed. (Brit. Col.), Nelson, B.C., appointed project director, Health and Welfare Canada Project No. 4559-19-7, School of Social Work, effective May 1, 1977—April 30, 1978.

New Appointments—Faculty

William H. Benjamin, M.A. (Stanford), of Oakland Calif., appointed assistant professor, Department of Music, effective July 1, 1977 to June 30, 1979;

John A. Celona, B.M., M.A. (San Francisco State Univ.), Cardiff-by-the-Sea, Calif. appointed lecturer, Department of Music, effective July 1, 1977—June 30, 1979;

Kathleen Cyr, B.Sc. (Seattle Univ.), M.A. (Univ. of Washington), Victoria, B.C., appointed associate professor, School of Nursing, effective July 1, 1977 to June 30, 1979;

Edward E. Ishiguro, B.A., M.A. (San Francisco State College), Ph.D. (Univ. of Illinois), Vancouver, B.C., appointed sessional lecturer, Department of Biochemistry and Microbiology, effective July 1, 1977—June 30, 1978;

Marilyn F. Jackson, B.Sc. (Univ. of Manitoba), M.Ed. (Toronto), Willowdale, Ont. appointed sessional lecturer, School of Nursing, effective July 1, 1977—June 30, 1978;

Fausto Milinazzo, B.Sc., Ph.D. (Brit. Col.), Victoria, B.C. reappointed visiting assistant professor, Department of Mathematics, effective July 1, 1977 to June 30, 1978.

Resignations

The following persons have submitted resignations effective the date shown:

George E. Apps, director, Buildings and Grounds, effective Aug. 15, 1977 (Changed from July 31, 1977);

Harvey O. Bennett, associate professor, Faculty of Education, effective June 30, 1977;

Eileen Gibson, lecturer, Department of Music; effective June 30, 1977;

Bryan McGill, publications editor, Department of Community Relations, effective July 15, 1977;

Carol W. Porteous, analyst/statistician, Institutional Analysis, effective June 15, 1977;

Rose-Marie Silken, administrative assistant, Department of English, effective June 30, 1977.

The Board of Governors will meet at least once during the summer. The next meeting is scheduled for July 25 in the Gold Room of the Commons Block, beginning at 1 p.m.

These students ran to land in UVic

A group of 150 young men and women ran a mile and a half in laps around the Centennial Stadium track last week and each runner seemed to strain as if the very future depended on how well he or she did.

In fact, the immediate future of the runners did depend on how fast they ran, combined with a multitude of other factors.

For these were applicants for the 85 first-year positions in the Division of Physical Education and neither brains nor brawn alone would be enough to guarantee them a spot for the 1977-78 Winter Session.

The students came from all across British Columbia and beyond and were put through two days of tests and interviews on campus. They came from Masset in the Queen Charlotte Islands, from Vancouver Island, the Okanagan Valley and the Caribou and some even came from Alberta and Saskatchewan.

About half of them would leave disappointed.

"There are four major criteria for selecting first-year students," explained Dr. Bruce Howe, chairman of the division.

"Students must have a minimum of a C plus average in high school, they must demonstrate proper motivation in an interview and they must do well at five skill tests and four fitness tests."

And the competition is so stiff that to do poorly in even one of the tests would mean that the applicant would probably not make it.

"High-class jocks who haven't got the required academic average don't get in and those who don't measure up in the tests won't make it either," said Howe. "We find that we wind up with a group of well-rounded individuals."

Howe said the students who are accepted average about a B minus academically.

And there is no sexual discrimination from either side as the women compete with the men on even terms in all but the fitness tests.

Along with the run of a mile and a half, applicants must do speed sit-ups, flexed-arm hang and standing broad jump as fitness tests.

Skill tests include gymnastics, swimming,

tennis or badminton, basketball or volleyball, and an outdoor team sport such as field hockey, softball or rugby.

Scores are kept for each test and the results along with academic grades and the personal interview are assessed by a committee which decides which applicants are accepted.

Along with the run of a mile and a half, applicants must do speed sit-ups, flexed-arm hang and standing broad jump as fitness tests.

Skill tests include gymnastics, swimming, tennis or badminton, basketball or volleyball, and an outdoor team sport such as field hockey, softball or rugby.

Scores are kept for each test and the results along with academic grades and the personal interview are assessed by a committee which decides which applicants are accepted.

Last week 75 of the applicants were conditionally accepted. Another 10 will be accepted later this summer after another series of tests for other candidates.

While some UVic officials have expressed fears about falling enrolment, the Physical Education division is experiencing a slight boom in applicants. Howe said there were a total of 220 applicants for 1977-78, an increase of 10 per cent from last year.

About a quarter of the applicants were students hoping to transfer to UVic from community colleges including Camosun, Malaspina, Okanagan, Douglas, Selkirk, and East Kootenay.

The division is increasing enrolment in first-year in September from 75 to 85 students in anticipation of two new programs scheduled to be introduced. The new programs are science-oriented leading to a bachelor of science degree in human performance and bachelor of arts degrees in human performance and leisure studies.

The programs are planned for students interested in entering the fields of employee fitness and athletic administration rather than teaching.

At *The Ring* deadline last week the programs had not yet received final approval from the Universities Council of British Columbia.

ringers

Those works of art hanging up around campus buildings and offices may soon be recalled, advises **Dr. G.B. Friedmann**, chairman of the university art committee. States Friedmann: "With the imminent completion of the university gallery, the university art committee has had approved the principle that all university art collection items on load are subject to recall so as to allow the collection to be checked, repairs done as needed, and items for display in the gallery selected." Friedmann has sent letters to all the borrowers on record in the collection file, advising them of this possibility, but he is making a further appeal because the file may not be fully up-to-date.

The recently-formed jubilee celebrations committee has already set tentative dates for the 1978 jubilee events for UVic. In a memorandum to faculty and staff, its chairman, **Dean Peter Smith** of Fine Arts, announced the following dates have been proposed: official opening of the University Centre, March 9 or 10; open house, March 11 to 12; homecoming events for alumni; spring convocation, May 27; visit of Commonwealth university heads August 23; official opening of the music wing and a special convocation, sometime in November. "If any of you are aware of special events in 1978 that could be included in our jubilee calendar, or have suggestions that you wish to bring forward, please send a memo to me or **Maurice Cownden** (Information Services), the secretary of our committee," stated Smith. The jubilee year is to commemorate the 75th anniversary of the beginning of instruction at Victoria College, the university's predecessor, and the 15th anniversary of the founding of UVic.

Dr. Elaine Limbrick, chairman of the French Department, has been elected vice-president of the Canadian Comparative Literature Association. The election took place during the May meetings of the Learned Societies at Fredericton, N.B.

Donna Image, who has been on staff with the Chemistry Department since January, recently received the Edward Tanner Award presented by the Commercial Club or Oak Bay Senior High for being the outstanding secretarial student of the year.

If you can tootle a flute, tickle the ivories, strum a guitar or just like singing in the shower you may want to contact **John Watson**, Manager of Food Services. He's prepared to provide a stage and professional equipment to anyone wishing to provide their own musical entertainment in the Raven's Wing, a popular licensed dining spot on the main floor of the commons Building. "You don't even have to have talent," explains Watson. "If anyone wants to organize a sing-along or entertain themselves and others musically Food Services will provide the stage and equipment." So if there are any aspiring **Mitch Millers** out there looking for a place to organize a sing-along during the day or evening, contact Food Services, at locals 4157, 6678 or 6679.

The Ring will next publish Sept. 6, the first day of Winter Session. Deadline will be Aug. 24.

Following that issue, The Ring will resume its normal Winter Session schedule of publishing every second Wednesday. Letters to the editor will be published if signed and without libellous content. Letters are subject to editing to meet space requirements. Material contained in The Ring can be reprinted or broadcast freely without permission. Credit is not necessary but would be appreciated.

Congratulations are in order for **Dr. Sam Macey**, **Dr. Patricia Koster** of the English Department and their assistants for organizing the successful meeting at UVic recently of the American Society for Eighteenth Century Studies. The meeting attracted 362 delegates from across North America and was historically one of the most important meetings of Restoration and Eighteenth-Century scholars ever to take place in Canada.

Sherry Green, who received her B.A. in psychology this year, and **Vivijana Dujela**, who graduated with a B.A. in Russian in 1975, are the recipients of the 1977-78 Canada-Yugoslavia Exchange Scholarships for post-graduate studies in an institution of higher learning in Yugoslavia. There are three scholarships awarded to Canadian students every year through a nation-wide competition administered by the Association of Universities and Colleges of Canada and the Yugoslavian government. This is the second year in a row that UVic students have been awarded these scholarships. **Douglas Jull**, a UVic graduate in 1975 is completing his first year of post-graduate work in Yugoslavia. Dujela will do research on contemporary Yugoslav women writers and Green on sociology of class and stratification.

Dr. Mel Faber (English) has had an article "Suicide, Seneca and the Creative Act" accepted by **Omega: the Journal of Death and dying**.

Dr. Bryan Gooch (English) has received a Canada Council grant of \$5,464 for a project entitled "Musical settings of Victorian literature: a catalogue".

Professors at Simon Fraser University have agreed to a wage increase of 6.3 per cent for 1977-78 with an additional 3.68 per cent to be set aside for career progress and promotion increments. Agreement was reached earlier this month in formal negotiations between the Faculty Association and Board of governors at Simon Fraser. The percentage increase for career progress or promotion will range from six per cent for beginning assistant professors to 1.2 per cent for senior full professors.

Dr. Alex McAuley (Chemistry) has been awarded a grant by NATO for research collaboration with **Dr. J.M. Winfield**, a chemist at the University of Glasgow. McAuley's project received funding of \$3,600 in the first year and involves the preparation and characterization of metal ions solvated by organic solvents. NATO provides grants for basic collaborative research between laboratories in different countries. McAuley explained that the object of his study is to prepare solutions of metal compounds in organic solvents where there are possibilities for "cleaner" chemical reactions. "Water is the most abundant solvent we have, but is incredibly difficult to purify," he said.

Two UVic students are travelling to Yugoslavia this summer as winners of scholarships awarded by the International Slavic School of the University of Zagreb. The students in Slavonic and Oriental Studies are **Anthony Booker** [FA-3] and **Wright Thompson** [A&S-2] who will pursue their studies of Serbo-Croatian language and literature. They are spending six weeks in Yugoslavia visiting Dubrovnik and Zagreb and will also travel to Skopje and Ohrid, Macedonia where they will take part in the 10th annual seminar for Macedonian language, literature and culture, sponsored by the University of Cyril and Methodius in Skopje, Yugoslavia. This is the fourth year UVic students have been awarded these scholarships.

Publications

Zietlow, E.R. (English) "A Country for Old Men and Other Stories", **Lame Johnny Press**, 1977.

This impressive piece of equipment — they call it a **Jarrell Ash 3.4 meter grating spectrograph** — is actually a large [and very expensive] camera, according to **Dr. W.J. Balfour** [Chemistry] who purchased it for the department through an equipment grant of \$28,150 he obtained from the National Research Council. **Balfour** [background] and his assistant **Alan Taylor** [foreground], a fourth-year honors student, are at present using the 1,600-pound spectrograph to study "the shapes and sizes of small molecules by examining how they absorb different frequencies of light". The spectrograph has two interchangeable gratings enabling spectra to be photographed at high resolution and high dispersion over the complete wavelength range from 190 nanometer to the infrared. It is so sensitive even to the slightest vibrations of the building that it was required to be mounted on shock absorbers. "It is the best commercial spectrograph in the world," said **Balfour**.

notices

Canada Council has introduced a new program of grants for international representation, designed to underwrite the travel costs of Canadians elected to executive positions in international, non-governmental organizations concerned with the arts, humanities and social sciences. This program, however, does not cover support to Canadian delegates to international congresses or meetings where the primary purpose is to exchange knowledge and the professional competence of the participants. The two deadlines for receipt of applications are Jan. 15 (decision by mid-March) and Sept. 1 (decision mid-October). Information can be had by writing to **Mariette Hogue**, International Representational Travel Program, Canada Council, P.O. Box 1047, Ottawa, Ont. K1P 5V8.

A reminder is in the Bulletin (spring 1977) of the Humanities Research Council of Canada (HRCC) that it is welcoming academics with manuscripts worthy of support to submit their efforts for assessment. The HRCC and Social Sciences Research Council of Canada (SSRCC) have since 1957 administered Canada Council funds to aid scholarly publication. "The program is designed to assist the publication of works of advanced scholarship which make an important contribution to the advancement of knowledge, but which are unlikely to be self-supporting. In general, only book-length manuscripts are eligible for consideration. Works of poetry, fiction or drama as well as previously published material do not fall under this program." Submissions can be made to HRCC at 151 Slater Street, Ottawa, Ont., K1P 5H3.

McGill, left, and Driscoll

New editor named

John F. Driscoll, editorial assistant in the Office of Information Services, has been appointed editor of *The Ring*, effective July 15, replacing **Bryan McGill**, who is resigning to join *Monday Magazine*.

Driscoll, 37, whose byline has been familiar to *Ring* readers since the establishment of the university newspaper in October of 1975, has had more than 10 years of experience with daily newspapers.

A native of Peterborough, Ontario, he began his career as a reporter with the *Peterborough Examiner* in 1962, later working as a reporter and editor with a number of Toronto publications, including the now defunct *Toronto Telegram*. He also worked as a reporter with the *Victoria Times*.

Driscoll gained his B.A. in English from the University of Toronto.

McGill, 37, came to UVic in 1974, becoming publications editor and responsible for *Around the Ring*, the faculty newsletter which preceded *The Ring*.

McGill worked as an editor and reporter for a number of dailies, including the *Victoria Times*, the *Toronto Globe and Mail*, the *MooseJaw Times-Herald* and *The Calgary Herald*.

He will be urban affairs editor with *Monday*.

Driscoll's appointment was approved at the June meeting of the Board of Governors.

Progress to swallow up campus hangout

By Bryan McGill

One of the favourite hangouts on campus for the students, faculty and staff, the Coffee Shop in the Campus Services Building, will be eliminated later this summer because of the march of progress.

It's a pity, at least for nearly 600 persons, presumably habitués of the Coffee Shop, who petitioned in vain against closing it down.

One of the main reasons for the popularity of the little cafe is the women who manage it, a cheerful lot who enjoy bantering and chatting with customers.

They'd rather have their 25-table nook remain, too, but they are resigned to the inevitable.

"We really don't like to go but we're going," said Vera Dilba, who supervises the place, and answers to John Watson, Manager of Food Services.

They're going to become part of a larger staff who will operate the new 400-seat cafeteria and dining room in the University Centre which is scheduled to open by the time fall comes.

In the view of the administration, having the much larger facility just across from the Campus Services Building, renders the Coffee Shop obsolete.

However, the main reason for eliminating it is the need to expand the adjacent Campus Shop. As soon as the coffee Shop is closed, the wall between it and the Campus Shop will be torn down.

Ted Sawchuk, director of Student and Ancillary Services, said that actually the real problem is the overcrowded Bookstore across the corridor from the Campus Shop.

Expansion of the shop will allow it to take over a number of sundries now sold in the bookstore, such as magazines and records.

It could be argued that more spacious quarters for the Bookstore should have been included in plans for the University Centre, but this is now a matter of hindsight.

The petition which was circulated in the final weeks of the Winter Session and presented to Sawchuk states: "We, the undersigned, do not wish to see the Coffee Shop closed, for it provides the much-needed intimate service as an alternative to the cafeteria-style atmosphere."

The kind of appreciation customers have for the Coffee Shop was reflected by *Martlet* columnist Reggie Douglas in his last piece of the year, his own "honor roll".

Douglas thanked "the staff at the Campus Services Cafeteria: for efficient, cheerful service and the best quality in food on campus. Long may you serve your delicious hamburgers! Hi Vera and Muriel."

There is no exaggeration in Douglas's tribute.

The Coffee Shop has been an oasis of friendliness and relaxation, particularly needed in those desolate stretches of university life in the late fall and winter periods when exam and study pressures are building up and everybody around looks like a sufferer in a television headache ad.

"And we do serve the best food on campus," said Vera, with some bias.

Six women work there, and all but one of them have been together for three to five years making up and dishing out sand-

wiches, hamburgers, soup, salads and other snacks.

The women will tell you the reason for this lack of staff turnover is that they not only enjoy working with each other but enjoy the company of their customers, especially students.

And they are busy. Even during the quieter periods of Inter-session and Summer Session, they average 500 customers a day, compared to 800 to 900 during the Winter Session.

Another unusual thing about the women is that four of them are from Latvia, one of the smallest countries in the world.

How come there are four Latvians working in one place, a reality that probably can only be elsewhere repeated in Latvia itself?

"Because we are so good," said Vera,

laughing. "When one started we all got in!"

Vera was the first. Actually she has been working there 10 years, the first five when it was operated by the Canadian Institute for the Blind before the university took it over.

The other Latvians are Dagmar Bystedt, who has been there five years, Velta Anins, three years and Rita Algadzis, three years.

A noticeable exception to the Latvians is Muriel Stewart (four years) whose thick Scot accent constantly rises above the hubbub of the place as she exchanges badinage with both customers and fellow workers.

"We get along well because we don't understand each other," remarked Muriel, nodding towards her Latvian cohorts.

The sixth member of the staff is Annie

Weiss, a Canadian native who being there only one year is considered "the baby" among them.

Outside of students, most of the regulars at the Coffee Shop come from the nearby huts, the McKinnon Centre, the Theatre Department, the Clearihue and Cornett Buildings, and from the Bank of Montreal, which is also in the Campus Services Building.

"Most will follow us over (to the University Centre) ... we hope," said Muriel.

They may, however, lose the bank staff "who won't have enough time" to get over to the new cafeteria during their coffee breaks.

"It's a shame, really, to close this place," said Annie. "It is a good location."

Now here is a lot of service. From the left is customer Dick Doyle, a Traffic and Security officer, Velta Anins, Muriel Stewart, Vera Dilba and Annie Weiss.

McGill Photo

Funds for scientists 'disappointing'

UVic scientists have received \$864,148 in awards from the National Research Council (NRC) to hire research assistants and purchase equipment for 1977-78.

The money will be used to cover a wide variety of research projects at the university, from an investigation of fish health and how diseases such as salmonella are transferred, to a study of the evolution of stars and galaxies.

The NRC awards for 1977-78 represent an increase of 7.7 per cent from the \$793,900 awarded to faculty members at UVic for scientific research in 1976-77.

Dr. John Dewey, Dean of Academic Affairs, said the amount of the increase was disappointing in the light of increases given to the granting councils by the federal government for 1977-78.

Dewey and other scientists at UVic and universities across Canada have been petitioning the federal government to increase grants for university research.

Even one of the granting agencies, the Canada Council, in its 1975-76 annual report, entered "a special plea on behalf of the universities of Canada, deploring the frightening cutback in research funds to the universities through our council and other granting councils."

As a result, Hugh Faulkner, Secretary of State for Science and Technology, announced that granting councils would receive budgetary increases this year to compensate for inflation. Faulkner said he would also increase funds to provide regional balance and deal with national problem areas and inter-disciplinary research.

"Despite some increases given to the granting councils this year, our increase is still far short of the increase in costs over the past year," said Dewey. "Our costs in research have risen at least 10 per cent and this 7.7 per cent increase is less than the cost of living. We're really worse off than last year."

The major increase in this year's grant is to UVic scientists associated with the Tri-University Meson Facility (TRIUMF), the cyclotron located on the campus of the University of British Columbia. The \$36 million facility, operated by four western universities including UVic, is being used to probe sub-atomic particles and is being prepared for use as the most advanced form of treatment for deep-seated cancers.

Scientists in the Physics Department at UVic received \$215,000 for research programs at TRIUMF, an increase of 39 per cent over the amount received last year. Dewey explained that in the past most of the funds for TRIUMF were for the development of the facility. Now we're seeing more funding for actual experiments at TRIUMF."

NRC awards went to 74 scientists in seven departments at UVic.

Seventeen members of the Physics Department and a team of UVic physicists at TRIUMF received awards totalling \$363,198. The Biology Department received awards of \$211,998 for 17 faculty members. The Chemistry Department received \$129,772 for 12 projects and 22 members of the Mathematics Department received \$84,135.

Four members of the Biochemistry and Microbiology Department received 165,184

for research projects and one faculty member in Psychology and another in Public Administration received \$11,710.

Included in the awards to the biology Department is \$15,000 for projects connected with the "John Strickland", UVic's research vessel.

Other research projects include a study headed by Dr. Derek Ellis into the effects on the environment when artificial sediments such as industrial waste settle into a deep ocean fjord.

Another grant will enable a team of scientists headed by Dr. John Hayward of the Biology Department to continue the study of more effective survival techniques for man in cold water.

Dewey, a physicist, has received a grant to continue studying the effects of shock waves in confined areas such as mine shafts. UVic President Dr. Howard Petch has received an award for research into hydrogen-bonded solids.

Dr. Reginald Clements (Physics) is continuing his research into improvements to the operation of the internal combustion engine which could produce a more efficient and economical car.

Dr. John Climenhaga (Physics) has received a grant to investigate high luminosity stars while Dr. Thomas Lambe (Public Administration) is studying decision-making in urban transportation systems.

A number of grants were also received for continuing research into mathematical problems, astrophysics and sub-molecular chemistry.

THE *SUMMER SURVIVAL* GUIDE

How to find a place to live

Summer Session students or visiting faculty members who still haven't found a place to live would be wise to contact the Housing Services Office in the Lansdowne Residence. Shirley Baker, manager of Housing and Conference Services, and her staff keep an up-to-date list of off-campus accommodation. In the lobby of the office, open until 11 p.m. seven days a week, there is a list of off-campus accommodation for students. Between 350 and 400 students are in residence for Summer Session and some rooms are booked for participants in conferences. The Lansdowne and Craigdarroch residences have accommodation for 600 students and Baker reports that about 1,200 applications have been received for residence in September. The availability of rental space in Victoria has increased in recent months so that students not able to get into residence should not have great difficulty in finding a place to live. The demand for residence accommodation should be eased somewhat with construction of another residence for 300 students planned during the next year. The residences contain lounges, a games room and coin-operated washers and dryers. Parking is provided in Lot 5 off Sinclair Road. Permits are necessary and available from the Housing Services Office. Meals are provided in the cafeteria-dining room on the second floor of the Commons Building. Breakfast is available Monday to Friday from 7:30 to 8:30 a.m., lunch from noon to 1 p.m. and dinner from 5 to 6 p.m. A continental breakfast is available from 8 to 9 a.m. on Saturday and brunch is available from 11:30 a.m. to 1 p.m. on Sundays.

It's the general store

The Campus Shop, located in the Campus Services Building, is UVic's general store, with items available ranging from aspirins to sporting goods. The store, operated under Bookstore manager Mrs. Trudy Martin, also provides the services of a sub-post office. The all-purpose store offers school and art supplies, gym strip, sweat suits, crested ware, gift items, cosmetics, greeting cards, stationery, games and hosiery. A good time to visit is during the sidewalk sale this week between the Campus Shop and the Bookstore. Hours during the summer are from 8:30 a.m. to 4:30 p.m., Monday to Friday.

Meals and machine snacks

Everything from vending machine snacks to full-course meals is available on campus. A popular eating spot is the Coffee Gardens in the Commons Block where you can obtain a moderately priced cafeteria-style meal. It's open Monday to Friday from 8:30 a.m. to 3:30 p.m. Or if you'd prefer a glass of beer or wine with your lunch the Raven's Wing, also in the Commons Block is open from 11 a.m. to 2 p.m. and from 4:30 p.m. to 8 p.m. Others may find the noon-hour health food bar in the Upper Lounge of the Student Union Building more suited to their taste. The Campus Coffee Shop in the Campus Services Building always draws a crowd and serves sandwiches, soup and hot dogs. Open from 8 a.m. to 3:30 p.m., it's also a great place to catch a late breakfast. Full-course meals are available in the fully-licensed Faculty Club which, however, is open to club members and guests only. The club is open for lunch from 11:30 a.m. to 2:30 p.m. and the lounge is open from 11:30 a.m. to 2:30 p.m. and from 4 to 6 p.m. The club will remain open for the entire summer this year, reports manager Glen Foster. Coffee and snacks are available in all academic buildings at vending machines. Several food outlets, including the Green Room and the cafeteria in the Student Union Building, are closed for the summer. On weekends during the summer there is a coffee shop service in the dining room in the Commons Block.

This bank buzzes

The busy branch of the Bank of Montreal, located in the Campus Services Building really buzzes on the 15th and last day of each month. Those are pay days at the University. The bank has expanded to the basement of the Campus Services Building, to a former barber shop, where the Canada Student Loans Department is located. Manager Anne Wills and her staff deal with the public from 10 a.m. to 3 p.m. Monday to Thursday and until 6 p.m. Fridays.

The University

The University of Victoria came into being on July 1, 1963, starting as a few buildings on a large campus of about 350 acres in what is known as the Gordon Head area of Saanich. Then there were about 2,000 students, many of them temporarily on the old Lansdowne campus of UVic's predecessor, Victoria College. Now UVic has an enrolment that during last year's winter session totalled nearly 7,500 graduate and undergraduate students. It also has a well-developed campus with two major construction projects under way and more scheduled to come. As young as this campus is, UVic's tradition goes back to 1903, when Victoria College opened in affiliation with McGill University in Montreal. It later affiliated with the University of British Columbia in 1920, and gained its autonomy when it moved from the

Lansdowne Campus to become UVic in 1963. The coming year will be a special one when the university marks, with various celebrations, the 75th anniversary of the beginning of instruction at Victoria College and the 15th anniversary of the founding of UVic. These celebrations will be highlighted by the official opening in March of the University Centre, the crowning touch in UVic's development with its 1,300-seat recital hall and its ultra-modern art gallery. A Board of Governors regulates UVic's financial affairs, physical plants and appointments, with the Senate being the supreme academic body. The chancellor is Dr. Robert T. Wallace, and the president, the university's fourth, is Dr. Howard E. Petch. The historical traditions of the university are reflected in its academic regalia. The B.A. hood is of solid red, a colour that recalls the early affiliation with McGill. The B.Sc. hood, of gold, and the B.Ed. hood, of blue, show the colors of U.B.C. Blue and gold have been retained as the official colors of UVic.

The McKinnon Centre

Since opening early in 1975 the McKinnon Centre, UVic's jock palace, has been a splash and smash hit with swimmers and squash players. Badminton, basketball, weight-lifting, gymnastics, dancing and martial arts are among activities pursued by students, staff and faculty in this edifice of recreation and physical culture. It's one of the most popular places on campus with locker space at a premium. The McKinnon Centre also houses the Division of Physical Education with its laboratories and classrooms. This summer, members of the public are invited to participate in the short, instructional classes at the centre (see story, this issue). Students and staff and faculty with PEARF cards and their families are permitted full use of the facilities. The building is open Monday to Thursday from 8:30 a.m. to 9:30 p.m. while it closes at 6 p.m. on Fridays. It is open from 10 a.m. to 5:30 p.m. weekends and will be open from noon to 5:30 p.m. Aug. 1 which is British Columbia Day. The pool hours are from 11:30 a.m. to 1:30 p.m. and from 3:30 to 5:30 and 8 to 9 p.m. Monday to Thursday. The pool is open from 11:30 p.m. and from 3:30 to 5:30 p.m. Fridays. On weekends and statutory holidays the pool is open from noon to 5 p.m.

Saunders

This is where you go to get parking permits and pay fines, at the Traffic and Security Office. It also contains the departments of Buildings and Grounds, and Campus Planning. Electrical, carpentry and mechanical workshops are located here. Saunders was constructed in 1974.

Phoenix Theatre & Box Office ▶

Old Gymnasium ▶

Tennis Courts

The Huts

Formerly army barracks and offices during the Second World War, they are scattered around the northeastern area of the campus, serving mainly as makeshift quarters for a number of academic and non-academic departments. Scheduled to move out of the huts sometime in August or early fall, when the main section of the new University Centre is completed, are student services offices, which are mainly located in 'M' Hut. There now are the offices of the Administrative Registrar, Admissions, Student Records Office, Student Financial Aid, Accounting, Summer Session and the Alumni Association. Another main hut is 'L', which has Personnel, Mail Services, the Division of Continuing Education and the Faculty of Graduate Studies, the latter two which are also slated to go into the University Centre. The Phoenix Theatre and Department of Theatre is located in 'Q' Hut, and the Department of Biochemistry and Microbiology is in 'N' Hut. *The Ring* originates from 'F' under the auspices of the Office of Information Services. Canada Manpower, which is going into the University Centre, is in 'V', and the Native Students Union in 'G'. Purchasing Services is in 'K'.

Cornett

This complex structure, built in 1966, is easy to find, flanking as it does the academic quadrangle. But once inside you may get lost. There are stories about unwary newcomers disappearing in its web of corridors. It houses the social sciences, such as the departments of Psychology, Sociology, Geography, Anthropology, Political Science, Economics and History. Hours: 7 a.m. to 10:30 p.m.

Sedgewick

Some critics of campus architecture will argue that most buildings should have been designed along the lines of the Sedgewick. The Sedgewick is a complex of three low-flung cedar frame buildings that were completed in 1968, 1969 and 1970. One of them houses the senior administration (8:30 a.m. to 4:30 p.m.). The other two contain the departments of Philosophy, Classics, history in Art, the schools of Social work and Nursing, the Child Care Program, and Institutional Analysis.

Other Buildings

The Campus Services Building (1965) is covered in other items in this issue dealing with book-buying; sundries, banking and eating, as is the McKinnon Centre (1975) with all its recreational and athletics facilities, and the Commons Block and the residences.

University Centre

Probably not since the opening of the McKinnon Centre in early 1975 will a building have such an influence in improving the quality of life on campus as will the forthcoming completion of the University Centre. The main section of the \$8.9-million structure is expected to be finished in August or September, and it will be the centralized quarters for student services offices which are at present scattered around campus. But it will also feature an art gallery, a sculpture court, a large cafeteria and dining area, and meeting rooms. The second section is the much heralded recital hall, which has been hailed by its creators as the finest structure of its kind in Western Canada and as a prototype for future halls around North America. It, however, won't be ready until early 1978. The centre as an entirety has been conceived as "the hub of activity" for UVic to serve as a facility of interaction between the students, faculty, staff and the public.

Clearihue

This was the first academic building to be constructed on campus (in 1962). It wing added in 1971, and a third wing was opened last year. Most of the modern departments are housed there. They are the departments of English, Germanic and Literature, Slavonic and Oriental Studies, French Language and Literature, and the French Language Diploma Program of the Division of Continuing Education. Departments include Mathematics, Computing and Systems Services, Computing and the Counselling Centre.

Student Union Building

Everybody calls it the SUB. It is undoubtedly the liveliest building on campus, because it is the hub not only of student political and social life but a drawing place for faculty and staff. Its main section is the oldest building on campus (1962), and since 1975 it has boasted a \$1-million addition which features a 300-seat auditorium. The SUB contains Alma Mater Society offices, a number of lounges, the news rooms of the student newspaper, the *Martlet*, a pub and a cafeteria. Though the cafeteria won't be open during the summer, the pub will be, from Tuesday to Friday, 4:40 p.m. to midnight. During weekday noon hours a health food bar will be open in the Upper Lounge. Building hours are 8:30 a.m. to 4:30 p.m. Monday, and 8:30 a.m. to midnight Tuesday through Friday. Cinecenta movies will be shown during the summer in the auditorium (see listings in the "Calendar" section on page 12).

McPherson Library

There's more than books to be found in UVic's largest building. With the main part being constructed in 1964 and an addition in 1973, McPherson also houses the Faculty of Law (with its own library), the Department of Creative Writing, the Office of the Registrar, and Media and Technical Services with its television and photographic studios. It's the place to go for quiet study. In its basement, is one of the students' favorite lounge areas on campus. See other item in this issue for details on McPherson hours and services.

Elliott

This houses the large departments of Physics and Chemistry with all their labs and scientific equipment. It was built in 1963, and had a lecture wing added in 1964. The wing contains two large lecture auditoriums, some classrooms, and a lounge that is another good spot for catnaps and studying. The building is open from 7 a.m. to 10:30 p.m.

Commons Block

University Health Services

Craigdarroch Residence

Lansdowne Residence

Cunningham

This fortress-like edifice sits in an area of the campus that was purposely left wild and treed in appearance. It is entirely occupied by the Department of Biology, which is constantly sending out forays of students and faculty into the wildernesses of the Island and the province, and out and into the sea. It was constructed in 1971. Hours are 7 a.m. to 10:30 p.m.

University Gardens

MacLaurin

This is the home of the Faculty of Education, and the departments of Music and Visual Arts in the Faculty of Fine Arts. It also contains MacLaurin 144, the auditorium where most campus concerts are held. Language laboratories are also located there. Its main lounge area, where art and photo exhibits sometimes take place, is a good lurking and relaxing area. Nearby is a coffee bar. Its hours are from 7 a.m. to 10:30 p.m.

Browsing and book buying

If you're looking for textbooks you'll find everything you need in the Bookstore located in the Campus Services Building. The Bookstore, open from 8:30 a.m. to 4:30 p.m., is always a busy place during the first few days of summer and winter session. It's operated on a break-even basis and you can pick up required and recommended textbooks. It's a good place for browsing, as well, with more than 15,000 titles in paperback and hardcover editions to provide background reading, reference material for essays and up-to-date reading of interest. A wide selection of magazines and records is also available. There is also an extensive selection of popular and obscure federal government publications since bookstore manager Mrs. Trudy Martin has become an official agent for the Department of Supply and Services. This week the Bookstore holds its outdoor sale in the mall where you can pick up bargains in old textbooks, trade books and general interest books.

Finding 'Lost and Found'

If you lose something, don't panic. Immediately find "Lost and Found". It's located in the Traffic and Security Office in the Saunders Building (locals 4331, 4508). Tom O'Connor, superintendent of Traffic and Security, encounters the same problem every year, a wide variety of lost items turned in and not claimed. "Once people who find lost articles turn them in quickly and once people who lose something contact us immediately, we will have a successful Lost and Found Department," he said. Often people will contact Lost and Found when they lose something but will fail to check again a few days later, by which time the article may have been turned in. All the goods which accumulate, and they always do, are donated to charity at the end of the academic year. Unclaimed money goes to the general fund of the Alma Mater Society. Lost and Found is open from 8 a.m. to 4:30 p.m. Monday to Friday.

Feeling low or lonely?

If you're feeling lonely, alienated or just plain confused, don't hesitate to contact the Counselling Centre on the main floor of the Clearihue Building. There, director Dr. Horace Beach and his staff are ready to advise students who are finding personal or study pressures a heavy burden. The centre provides professional counselling for personal and interpersonal problems, for educational-vocational and career planning questions, study-learning problems and information needs. You can obtain advice on managing anxiety, communicating skills, sexuality, losing weight, stopping smoking, researching and writing essays, and, in general, coping with campus life. During early registration, July 6 to Aug. 12, counsellors will be available to assist students. During the year the centre presents a number of courses. In August there will be a "Transition Course" for freshmen who will be attending UVic in September. This course, under Dr. Ray Martin, director of the centre's Reading and Study Skills program, is aimed at orienting freshmen to university life and teaching skills needed to survive academically. This includes learning how to read, take notes, write reports and handle exams more effectively. The Counselling Centre is open from 8:30 a.m. to 4:30 p.m.

For aches pains and VD

People come to the Health Services Building with a variety of problems from colds, cuts and sore throats to concerns about venereal disease and birth control. A nurse is on duty from 8:30 a.m. to 4:30 p.m. and two doctors are available by appointment. The building is off the beaten track on campus, located at the southeast corner of Parking Lot 5 (see map). Students, staff and faculty can arrange for instructions on the use of biofeedback techniques which assist people in eliminating headaches through a concentrated effort of the will. Before you scoff, Health Services personnel report that headache clinics in the past resulted in about half of those involved reporting that the method worked. A biofeedback machine is used for instruction. Students are reminded to bring their medical insurance coverage numbers with them when they visit the office.

How to get aid

For a growing number of students, surviving financially while attending university involves a visit to the Student Financial Aid Services office in "M" Hut. Financial Aid manager Nels Granewall and his staff are busiest in September when students coming back for the Winter Session swarm in seeking funds. During the summer the staff provides information and counselling for students and assists in filling out applications for financial assistance. It's a good time to visit the office since things become hectic during September. Students who have a rough time earning enough money to cover costs while attending university may be eligible for financial assistance in the form of a non-repayable grant and a repayable loan. They have to pass a means test imposed by government officials and if they're from a family background where substantial aid is available, the maximum financial aid they can get is less. If a student needs financial aid, he or she must apply before the end of the fourth week of classes in September to be considered for assistance for the entire year. If a student applies after that date, the need will be based on expenses for the second term only. So the sooner a student gets into the office, the better.

Island's largest library

First-time visitors to UVic are often surprised by the size of its library. The McPherson Library, largest on Vancouver Island, contains more than 700,000 volumes, more than 1 million items on microfilm and more than 15,000 records and tapes. The Curriculum Laboratory, located in the MacLaurin Building, has a specialized collection of more than 30,000 volumes and other materials to support student teaching requirements in the Faculty of Education. The University Map Collection in the Cornett Building houses more than 60,000 maps and aerial photographs. With the exception of the Special Collections division containing rare books and manuscripts, all resources of the library are housed in open stacks to which there is full public access. A word about your library card. It's probably the most important single piece of identification a student has, permitting him or her to gain entrance to the Student Union Building pub, theatre and almost all social and athletic functions. You can also borrow books, using the card. The main library is open until Aug. 17 from 8 a.m. to 11 p.m. Monday to Thursday, closing at 6 p.m. on Fridays. It is open from 10 a.m. to 6 p.m. Saturdays and closed Sundays and holidays. The Curriculum Laboratory is open from 8 a.m. to 6 p.m. Monday, Wednesday and Friday and from 8 a.m. to 9 p.m. Tuesdays and Thursdays. The University Map Collection is open from 8:30 a.m. to 4:30 p.m. Monday to Friday.

Confused? Disoriented? Don't worry

For those students finding themselves disoriented in their first few days on campus, or entangled in red tape, or encountering any problems in getting into the swing of things, there are hired hands around ready to help. The Alma Mater Society has introduced this summer an orientation centre in the Student Union Building. Two students have been employed full-time to help new and prospective students with their time schedules, course planning, or to give them information on how to get around campus and Greater Victoria. The service will be open between 9 a.m. and 5 p.m., but during the early registration period for the Winter Session, which runs from July 6 to Aug. 12, its hours will be extended to 7 p.m. Help on courses and timetables is also provided by the Arts and Science Advising Centre, Room 323, in the MacLaurin Building, and Faculty of Education Academic Advising in MacLaurin 250. Hours for both are 8:30 a.m. to noon, and from 1 to 4:30 p.m. except on Mondays and Thursdays during the early registration period. Of course, if you read this guide through, you should be less confused, and if you need more information about the university and its ways, drop into the Office of Information Services in 'F' Hut.

Parking costs, but not biking

Parking on campus during the summer is no problem, but it does cost a few bucks. During the Summer Session it costs \$2 general for students, and \$3 for staff, and \$6 reserved for both. Permits can be obtained at the Traffic and Security Office in the Saunders Building. If you are planning to be at UVic for the Winter Session, you are advised to get your permit as soon as possible after Aug. 1 to avoid the early September rush and the possibility of ending up on the waiting list for awhile. It is costlier and prices have been increased \$3 across the board for 1977-78. for faculty and staff, the rates for reserved will be \$33 and for general \$18. Students will be charged \$13 for general. However, for the underground parking in the new University Centre, which opens in the fall, the fee will be \$75 for each of the 42 reserved spaces. Because UVic was designed as a walking campus, its traffic committee is not anxious to recommend more parking lots to eat up the natural beauty of the place. In fact, it wouldn't be a bad idea to even reclaim some grass and trees from asphalt. More and more persons are bicycling to campus, and this is a trend that is being encouraged by the university through installation of more stands and its co-operation in the establishment this past spring of a bikeway from downtown to the campus. Of course, there are no charges for parking a bike, and you can park it right at the building in which you are studying or working, or use it to whip from one building to another. (Geez, we think we are talking ourselves here at *The Ring* into investing in bikes.) Needless to say, biking is a healthy exercise, and so is jogging, which is another way of transporting yourself here, if you are that fanatical about fitness. If you do work up a sweat getting here, you can always take a quick shower in the McKinnon Centre and begin the day with rosy cheeks and a glowing freshness. For those less physically gung-ho, other alternatives are to use the bus service (there are three lines to campus plus a new depot near the SUB Building), ride a motorcycle or join a car pool either through the Traffic and Security Office's system or among one's acquaintances. For those who bring their cars here infrequently, there are ticket machines at the map locations at the three entrances to the campus. The cost is 50 cents for a day. Parking infractions end in a \$2 fine if paid within three days, otherwise it's \$3. An unpaid fine can result in suspension of parking privileges.

Summertime on campus means a lot of entertainment for theatre-goers, provided by the Phoenix Summer Theatre now in its sixth season. This is a scene from *Loot*, a British comedy written by Joe Orton, one of three plays being staged in repertoire until July 30. Standing from the left are student actors David Wallace, Stephen Lloyd and Tish Monaghan, and seated is Bindon Kinghorn, artistic director of the program doubling as an actor. The two other plays are *When You Comin' Back, Red Ryder?* written by Mark Medhoff and directed by graduate student Stephen Elliott, and Noel Coward's *Blithe Spirit* directed by Michael Boucher, another graduate student. *Loot* is directed by graduate student Don Woticky. See the "Calendar" section of this issue for dates and times.

Early registration deemed success

Those long, winding line-ups which were a part of the campus scene every September during registration week may have disappeared forever, thanks to the early registration program, introduced in 1976.

Early registration for the 1977-78 Winter Session is available for all students and all faculties except the professional year in Education.

The program begins July 6 (Wednesday) and continues until August 12 in Room 207 of the Clearihue Building, Monday to Friday from 12:30 to 4:30 p.m. and from 6 to 7:30 p.m.

New students must have a letter of admission while former students must bring an authorization to re-register.

When early registration began last year there were some skeptics on campus who felt that few students would bother to register before September. However, 3,600 students went through early registration in 1976, slightly more than 50 per cent of all students who enrolled for the 1976-77 session.

"The numbers were gratifying," said Administrative Registrar Gordon Smiley. "Hopefully this year the percentage will go up, especially in first year."

In 1976 the highest percentage of students who went through early registration were entering senior years. These were the students who had been through the long wait in September line-ups in the previous years.

"They are the students who know the system and recognize they have a better chance to enrol in the courses they want if they register early," said Smiley.

Smiley said there were no major problems with the program in its initial year. "It went much better than we had anticipated," he said.

"Early registration makes things easier in September by spreading out the work load and we found that classes settled down faster than in previous years."

Students who had filled out their time-

tables during the summer made course changes during the first week of the course change period. "The number of course changes was about the same as in the previous year and changes during the second week went down," said Smiley.

While Smiley expects the number of early registrants to increase gradually over the next few years, he said it will not likely ever include more than 75 per cent of students.

And he's making no predictions about the total number of students who will attend UVic in the fall. "Right now we're running at about the same level as last year in the number of applications," he said.

"We're hoping our enrolment will at least remain at last year's level, but any prediction would just be sophisticated guesswork right now."

Smiley said there are 700 first-year students who have been conditionally accepted already at UVic. These are students from high schools visited in April and May on Vancouver Island and in the Interior.

He said UVic liaison officers are finding many high school students more interested in community colleges where shorter, job-related programs are available.

The first-year enrolment will have a crucial effect on enrolment at UVic for several years, Smiley pointed out. "Theoretically we have 6,000 people who attended UVic last year who could re-register. The fee increase and the job situation may have a bearing on how many return."

"The economic situation is also a key to our enrolment in first year."

All students who wish to register early will be able to talk to academic advisors to sort out courses and set up timetables. The Arts and Science and Education Counselling Centres in the MacLaurin Building are open and will remain open in the evenings Monday and Thursday during early registration.

Summer Session enrolment drops off

Enrolment at UVic's Summer Session '77 was expected to drop a projected 10 per cent according to figures compiled before *The Ring's* deadline.

Dr. Geoffrey Mason, director of the 21st Summer Session, said he estimated that enrolment would stand at just over 1,800 in 154 credit courses being offered this summer.

Summer Session starts today (July 4) and ends August 17.

Last year's attendance was about 2,000, the highest on record after several years of steadily climbing numbers of students.

Mason noted that the University of British Columbia is experiencing a much greater tailing off in summer enrolment with a projected 25 per cent drop.

He said he had no explanation for the decrease here.

He stressed, however, that because of the experience of the past there is no connection between numbers during Summer Session and those during Winter Session.

"It does not follow that because Summer Session enrolment is down, Winter Session will also be."

The largest percentage of summer students are teachers from around B.C. working toward degrees, most of the rest being graduate and undergraduate students continuing their winter studies through the summer.

Dr. George Pedersen, UVic vice-president and former Dean of Education here, said one possible explanation for the decrease might be that more and more students in the faculties of education are completing their degrees before they leave university for teaching jobs.

Mason said that though enrolment in credit courses has dipped, the number in non-credit programs has jumped, mainly because of increases in the two annual popular language immersion courses: *La Maison Francaise* and the English Language Program.

Whereas enrolment in each of these programs is normally around 80, this year it is 130, mainly because the federal government

has released more bursaries through the Dominion Provincial Bursary Program which assists these course in the promotion of biculturalism.

The six-week English course, under co-ordinator James Arthurs (Linguistics), includes both formal classroom instruction and social activities, and though it draws most of its participants from B.C., it does have a fair number from provinces across Canada.

La Maison Francaise, under co-ordinator Dr. Gerald Moreau (French), is for those whose first language is not English, and consists mainly of young people from Quebec, with some participants from Japan and Mexico.

Those coming from outside of Victoria in both courses are mostly housed in UVic residences.

Other non-credit offerings include the annual Senior Secondary Summer Theatre Workshop which has 25 high school students from around B.C. taking classes and mounting a production and lasts throughout the entire session; the "Adventure Experience", an outdoors program for teenagers that this year takes place in the Bowron Lakes area near Barkerville, and a sports school on campus for boys and girls aged 11 to 16.

A main academic highlight is the second annual Summer Institute in Cross-Cultural studies, which consists of courses, seminars and a public lecture series and is sponsored by the UVic Department of History in Art in co-operation with the Institute for the Study of Universal History through Arts and Artifacts. (See details on this elsewhere in this issue.)

This year's Summer Session faculty members number 150, 69 of whom are visitors from other institutions. "It's been a policy of UVic to obtain about one-third of Summer Session faculty from outside the university in an attempt to infuse new ideas," said Mason.

The majority of regular UVic faculty use the summer period for research and scholarly pursuits.

Russian to highlight lecture series

Dr. Boris Piotrovsky, director of the prestigious State Hermitage Gallery in Leningrad, is one of six featured speakers in a free public lecture series which is included in the second Summer Institute in Cross-Cultural Studies at the University of Victoria.

The Institute, presented by UVic's Department of History in Art in co-operation with the Institute for the Study of Universal History through Arts and Artifacts, brings together scholars and students from around the world and includes a six-week course on either graduate or undergraduate levels through Summer Session.

The theme of this year's Institute is parallels, contrasts and interrelationships of arts and institutions, thoughts and artifacts in the first millennium B.C. generally and the period 600 - 400 B.C. in particular.

The lecture series will focus on arts and architecture around the world during this period.

Dr. Piotrovsky will give a public lecture entitled "Archaeology of the First Millennium B.C. in the Soviet Union," in MacLaurin 144, July 25 at 7:45 p.m.

He will also give a week's lectures on the arts of Scythia and Urutu. His visit to UVic is sponsored jointly by the Institute and the Department of External Affairs.

Dr. Piotrovsky was appointed director of The Hermitage in 1965. It is one of the world's largest and most important galleries. He is one of the Soviet Union's leading archaeologists and editor of *Sovetskaya Arkheologiya*.

Dr. Alan Gowans, founder and chairman

of the Department of History in Art begins the lecture series July 4 in Room 108 of the Cornett Building. His lecture is entitled "Creative and Mental Growth in History: an Introduction to Cross-Cultural Study".

Dr. Gowans, who has lectured widely in Canada, the United States and Europe, organized the Institute which is a unique approach in Canada to the study of history. The courses offered at the Institute involve a survey of history across the world on a horizontal level, interpreting arts and artifacts as social functions.

Dr. John Oleson of the UVic Classics Department will speak July 11 on "Tomb Design and the Presence of Etruscans in the Hellenistic Greek World."

Dr. Partha Mitter, a guest lecturer at Oxford and professor of Asian History at the University of Sussex, will speak July 18 on "Life in the Vedic Age of India".

Dr. David Waterhouse of the University of Toronto in the Department of East Asian Studies at the Royal Ontario Museum will speak on "Diffusion versus indigenous growth in ancient cultures of East Asia".

The final lecture, August 8 will be given by Dr. Charles Wicke of the University of Oklahoma, an anthropologist and archaeologist who has published extensively in many different aspects of Precolumbian arts and civilization in both English and Spanish journals. His lecture is entitled "Olmec and Chavin: America's First Great Art Styles".

All lectures begin at 7:45 p.m. and with the exception of Dr. Piotrovsky's will be held in Room 108 of the Cornett Building.

McGill Photos

Minister of Education Dr. Pat McGeer visited campus last week to take a walking tour of the site of the new music wing and the Elliot Building laboratories. He also shared a sandwich-lunch and conversation with scientists involved in the Co-operative Education Program at UVic. It was evident from the animated discussion that McGeer, a scientist on leave from the University of British Columbia, feels at home talking to scientists. Putting their best foot forward in top photo are from left: President Dr. Howard Petch, Chancellor Dr. Robert Wallace, McGeer, Vice-President Dr. George Pedersen, Board of Governors chairman Joseph Cunliffe, McGeer's executive assistant James Bennett and Dr. John Dewey, dean of Graduate Studies and Research. At right Dr. George Beer (Physics) shows McGeer some instrumentation in a laboratory.

Math to join Co-op Program

The Mathematics Department at UVic is planning to join the Co-operative Education Program, now in full swing for 47 students in Physics and Chemistry who are in the middle of their first work term.

Co-operative Education is a year-round program in which top students complete several work terms in jobs related to their studies as an integral part of their degree program.

Dr. Dale Olesky, chairman of the co-operative education committee in Mathematics, said the program has not yet received Senate approval. "We are planning to include 15 to 18 students in mathematics, computing sciences and statistics with the first work terms starting in May of 1978."

Meanwhile, first reports from physics and chemistry students working in industrial and institutional laboratories indicate that the program is off to a successful start.

Dr. Alex McAuley (Chemistry), who is making on-the-job visits to 18 students in the Chem Co-op program, said students appear to be settling in at their jobs and are finding the work challenging.

"From all the feedback we're getting the students going out are doing a good job and

company officials are happy with the quality of the students' performances."

McAuley visited two students working in laboratories in the Vancouver area recently, at the federal food and drug laboratory and at Western Forest Products.

Co-operative students are employed at 16 industries, 10 federal institutions, and three provincial agencies in B.C., Alberta, and Ontario. One student, Alison Sinclair, is completing her first work term in physics at the Royal Infirmary in Edinburgh, Scotland.

McAuley said it became evident in the organization of the co-op program that industry is looking for well-qualified students who can be challenged in work projects.

"They're looking for well-motivated, thinking people and I believe we're fulfilling our part of these criteria in the people we're sending out," said McAuley.

McAuley emphasized that the co-op program is not a job placement or job-finding program. "The object of the program is to give students the best education possible, to allow them to develop into the sort of scientists they want to be."

While the students benefit from the exposure to the real working world, a

valuable side effect is the continuing dialogue between the university and industry.

"This interaction between industry and the university is beneficial to both sides," said McAuley.

He said the Chem Co-op program will be gradually expanded to include about 25 to 30 students. Work terms are scheduled to alternate on a year-round basis with the academic program so that some students will be attending classes during the summer and working during the winter session.

"We see sustained, stable growth for the co-op program which will co-exist with the conventional academic program."

McAuley does not believe that the co-op program is for everyone. "Only certain students benefit from such a program," he said. "The work load is increased and the student must perform satisfactorily both academically and in the work terms."

He said for many students the co-op program would not mean as much as for others, but these students could benefit significantly from a conventional university education."

Sign up and go jump in the river

Climb a mountain, ride a wild river in an innertube or just jog around the Ring Road at an even pace.

These are just a few of the summer activities that have been organized at UVic by Athletics and Recreational Services. There are tournaments, instructional classes and a series of special outdoor recreational activities for staff, faculty, students and their families.

Members of the public are also invited to participate in the short instructional classes being offered.

Most instructional classes begin the week of July 11 and there are courses in jazz dance, ballet, squash, and tennis.

Children in the Greater Victoria area are also invited to participate in special short instructional classes.

Registration in all activities for students, staff and faculty began last week and this week members of the general public can register.

For those who are part of the growing recreational sport of bicycling, there will be a bicycle maintenance clinic July 13 in McKinnon 150. The three-hour session will provide the novice and the touring biker with the skills to handle routine maintenance and repairs.

Fee for holders of PEARF cards and their families is \$2.50 with a \$5 fee for others.

There are two day-trips for the more energetic on campus, July 17. An innertube ride down the Cowichan River, with the innertube, transportation and lunch supplies, is planned. Participants must register at the McKinnon Centre by July 13. That is also the cutoff date to sign up for a bicycle trip from UVic to Beaver Lake.

Later in the summer a four-day Long Beach weekend is scheduled as well as a two-day climb up Mount Arrowsmith, one of Vancouver Islands highest mountains.

A feature this summer are the Ring Road Pace Runs in which teams of a man and a woman pit themselves against the clock and the 1.2-mile course. The teams must predict the total team time it will take to jog around the course and the closest to the predicted time picks up all the entry money which is 50 cents each. The runs will be held July 26 and Aug. 11 with registrations at the McKinnon centre.

There are tournaments this summer in squash, tennis and soccer. The men's and women's open softball squash tournament is scheduled for July 23 with an entry fee of 50 cents.

An inter-departmental soccer tournament will be held Aug. 10 and the tennis tournament, with men's, women's and mixed doubles competition is slated for Aug. 5, 6 and 7.

There are swimming classes for adults as well as instructional classes in scuba diving, hatha yoga, canoeing, kayaks and sailing.

Qualified instructors will present a one-day course in cardiopulmonary resuscitation July 20 at the McKinnon Pool. The course is sanctioned by the American Heart Association, Workers' Compensation Board and the Provincial Emergency Program.

In addition to the instructional classes there are a series of loosely structured intramural activities on a daily basis, including outdoor volleyball, noon-hour jogs, soccer and softball.

And for those who just want to use the facilities on campus, the pool, squash courts, gyms, tennis courts and playing fields are available and can be booked by members of the university community.

Information and brochures on the summer programs are available in the McKinnon Centre.

AMS to go all out on bus pass fight

The Alma Mater Society will fight "all the way" a B.C. Hydro decision eliminating the experimental UVic bus pass system, according to AMS President Brian Gardiner.

"We are trying to set up a meeting with Robert Bonner, chairman of B.C. Hydro, and if that fails, we're not afraid to go to the B.C. cabinet to try to have this decision squashed," said Gardiner.

The decision to drop the bus passes was announced last month by Dave Suttie, manager of Transportation Operations for B.C. Hydro.

Suttie said the system was used by less than 1,000 students, which is disappointing considering that the total student population is well over 6,000.

In the first term, 964 students used the program paying for passes that cost \$37.50. In the second term, for a price of \$39, the number of users dropped to about 800.

"It was a pilot program and in our opinion it was not successful," Suttie said. "We are not going to renew it."

The AMS responded by picketing the B.C. Hydro transit office on June 20.

Gardiner said that during the picket bus drivers came up to the students and expressed their support for the pass system.

Gardiner said that B.C. Hydro's reasoning about the system is "completely illogical".

He said it didn't cost Hydro anything to

have it, because all the administrative cost, the distribution, the advertising and the collection of money were borne by the AMS and the university.

"Hydro did nothing but collect \$30,000 at the beginning of each term."

Gardiner also argued that it is too early to determine the success of the program. "there is no way you change people's minds about public transportation in just eight months."

The AMS president said that students were generally happy about the campus bus schedule. Three bus lines are routed through the campus, two of which, Cadboro Bay and University, now make their stops at the new depot outside the Student Union Building.

Gardiner said the AMS is now trying to persuade Hydro to have the third line, the Crosstown, make its turn-around stop at the depot instead of at the Cadboro Bay village.

Meanwhile, at the June meeting of the Board of Governors, student governor Clayton Shold served notice of motion to seek an endorsement from the next board meeting in the effort to turn back Hydro's decision.

Dean of Administration Trevor Matthews told the board that from "our point of view the pass system was very successful. We're very disappointed with the response we received from Hydro."

Campus briefs

UVic now has legal permission to sell or lease the Maltwood Art Museum property and to house permanently its 2,000-piece collection on campus.

Last month Mr. Justice James Macdonald of the B.C. Supreme Court granted UVic this permission, overturning the conditions of the bequest from Katherine Emma Maltwood which put the six-acre property and collection into the university's hands in 1964.

In approving UVic's application, Macdonald called it an "eminently sensible" suggestion.

UVic wanted to move the collection into proper facilities on campus to prevent any further deterioration. The collection is stored under inadequate conditions in the present building, known as "The Thatch", located on the Maltwood property overlooking West Saanich Road at the Pat Bay Highway overpass.

The bequest had restricted UVic from selling the property or moving the collection.

The court order specifies that any proceeds from the sale of the property and building last appraised in late 1975 to be worth \$340,000, will be used for construction, maintenance and operation of a structure suitable for the preservation and display of the collection.

The collection will be housed in the new University Centre, and segments will be displayed from time to time in the centres modern art gallery.

The collection includes 14th century oriental works, 16th century English furniture, and an extensive number of Art Nouveau pieces.

It is expected the Board of Governors will discuss at its July 25th meeting the disposition of the property.

UVic still has to apply for provincial government approval before it can dispose of the property.

UVic and Simon Fraser University appear to be caught in a "Catch-22" situation regarding plans for construction of new residences.

Central Housing and Mortgage Corporation (CMHC) has agreed to lend the two universities the money to build the much-needed residences. However, the interest rate CMHC is demanding makes the cost so high it would be impossible for students to afford to live in the residences.

President Howard Petch explained the situation to the Board of Governors at the June meeting and was directed to appeal to the federal government for a lower interest rate.

UVic has a design for a residence for 300 students approved by CMHC. When Minister of Housing Andre Ouellete, responsible for CMHC, promised to provide the money for the residences it was not clear what the interest rates would be.

UVic was hoping to qualify for a special 8 per cent interest rate, but CMHC has thus far ruled that the university must pay the standard 9 7/8 per cent.

"At 8 per cent the cost to the students living in residence could be managed but at the higher percentage the costs to students would be beyond their reach," said Petch.

He explained that the design for the building originally called for reinforced concrete, but this was changed to wood-frame construction to keep the costs down. "We can't lower the capital costs any further. We're at an impasse."

Petch added that the only alternative to a lower interest rate would be to find funds to subsidize the residence. BOG Chairman Joseph Cunliffe said UVic may have to go to the Universities Council of British Columbia to attempt to borrow the money needed to bring costs for students down to an acceptable level.

At last, after many delays, construction is underway on the \$3.5 million Music Wing, and no one is happier than Prof. Phil Young, left, who just stepped down July 1 as chairman of the Department of Music. An ebullient Young presided over a sod-turning ceremony the second day after Campbell Construction of Victoria arrived to begin work. There was hardly any turf left to turn because bulldozers had already levelled most of the site, except for this corner of the field beside the MacLaurin Building. With Young, from the left, are Dean of Fine Arts Peter Smith, Dr. Gerald Hendrie, visiting from Cambridge, England, who was the department's first chairman, and architect Alan Hodgson. The music wing, scheduled for completion in the fall of 1978, received approval from the provincial government last December a year after it was ready to go and after months of controversy over its necessity. It appeared that it might suffer another setback when the low bid from Campbell came in too high. However, the provincial cabinet approved an extra \$320,000 to meet the increased cost.

Concert series started

A series of concerts featuring familiar composers begins this week, sponsored by UVic's Department of Music.

The Summer Music series includes five sets of concerts Tuesday and Thursdays during July. Organizer Lanny Pollet (Music) explained that the concerts should be "exciting for the listener and an enjoyable challenge for the musicians".

The opening performances July 5 and 7 at 8 p.m. in MacLaurin 144 will feature a chamber orchestra including Kathryn Ely (harp), Lanny Pollet (flute), John Loban of UBC (violin) and Dr. Erich Schwandt of UVic's Music Department (harpsichord). Included in the program are a harp concerto in B Flat by Handel, Serenade for flute and strings by Howard Hanson, Bach's Concerto in A Minor for harpsichord, flute and violin and other works by Mozart and Telemann.

The following week, July 12 and 14, there will be a full recital by cellist Linda Hougland-Daniels which will include the Sonata for cello by Rachmaninoff and a set of variations on a theme from The Magic Flute, by Beethoven.

The third presentation July 19 and 21 is a concert of Bach's music including the comic

and now topical "Coffee Contata" featuring soprano Catherine Young, tenor Rory Hammond and bass Lanny Pollet. The program also includes chamber music, a flute sonata and a Partita.

A highlight of the series, July 26, will be a single appearance of the Koto Ensemble of Greater Vancouver, a group of about six musicians who will perform classical and contemporary Japanese music. They are presenting a series of concerts by master teachers to mark the 100th anniversary of the first Japanese immigrants to the west coast.

Their instruments include the koto, a dulcimer-like instrument, the shaku-hachi, a large bamboo flute and the shamisen, a banjo-like instrument.

The final selection in the series July 28 is a piano recital by Robin Wood, professor of piano at the Victoria Conservatory of Music. Wood has played every summer since the series began in 1973 and he will perform works by Chopin and Samuel Barber.

All concerts will be given in MacLaurin 144, starting at 8 p.m. General admission is \$3 with senior citizens and students paying \$1.50. More information is available from the Department of Music at local 4361.

The latest contribution by private industry to UVic's Jeanne S. Simpson Field Studies Resource Centre at Cowichan Lake is this new dock. Western Forest Industries donated \$8,000 in labor and materials to build the facility. The person on the dock is the firm's manager, Don Hammond. Last summer Crown Zellerbach built at its expense a \$70,000 log laboratory for the site, which is being used for research and studies by faculty and students. The site, consisting of 25 acres of wilderness bordering on 3,000 feet of lakeshore, was

bequeathed to UVic by Mrs. Jeanne Simpson, who died in 1973. The next step in the development of the property is to raise funds from private industry to construct residence accommodation, according to F.A. Fairclough, director of funds.

calendar

Monday, July 4th

7:45 pm
First in a public lecture series in History in Art. Dr. Alan Gowans on "Creative and Mental Growth in History: An Introduction to Cross-Cultural Study".
8:00 pm Cor. 108.
Phoenix Summer Theatre. "When You Comin' Back Red Ryder?" Admission charge.

Tuesday, July 5th

8:00 pm
Phoenix Summer Theatre. "Loot". Admission charge.
Summer Music. MAC 144. Chamber orchestra concert. Soloists in music by Handel, Hanson, Mozart and Bach. Admission: Adults: \$3.00, Students and OAP: \$1.50.

Wednesday, July 6th

7:30 pm
* Cinecenta Films. SUB Theatre. "La Femme Infidele". Admission charge.
8:00 pm
Phoenix Summer Theatre. "Blithe Spirit". Admission charge.

Thursday, July 7th

3:30-5:00 pm
Petch Peeves. Students, staff and faculty welcome to see Dr. Petch in his office. Please call local 4201 for confirmation of time.

7:30 pm
* Cinecenta Films. SUB Theatre. "Candy". Admission charge.

8:00 pm
Summer Music. MAC 144. Repetition of July 5 performance. Admission charge.

8:00 pm
Phoenix Summer Theatre. "Blithe Spirit". Admission charge.

Friday, July 8th

8:30 pm
* Cinecenta Films. SUB Theatre. "Lady Sings the Blues". Admission charge.

8:00 pm
Phoenix Summer Theatre. "When You Comin' Back Red Ryder?" Admission charge.

Saturday, July 9th

8:00 pm
Phoenix Summer Theatre. "LOOT". Admission charge.

Monday, July 11th

7:45 pm
Second in public lecture series in History in Art. Dr. John Oleson on "Tomb Design and the Presence of Etruscans in the Hellenistic Greek World". Cornett 108.

8:00 pm
Phoenix Summer Theatre. "Loot". Admission charge.

Tuesday, July 12th

8:00 pm
Summer Music. MAC 144. Cello recital by Linda Hougland-Daniels. Admission charge.
Phoenix Summer Theatre. "Blithe Spirit". Admission charge.

Wednesday, July 13th

7:30 pm
* Cinecenta Films. SUB Theatre. "Z". Admission charge.

8:00 pm
Phoenix Summer Theatre. "When You Comin' Back Red Ryder?" Admission charge.

Thursday, July 14th

3:30-5:00 pm
Petch Peeves. Students, staff and faculty welcome to see Dr. Petch in his office. Please call local 4201 for confirmation of time.

7:30 pm
* Cinecenta Films. SUB Theatre. "Women In Love". Admission charge.

8:00 pm
Summer Music. MAC 144. Repetition of July 12 performance. Admission charge.
Phoenix Summer Theatre "When You Comin' Back Red Ryder?" Admission charge.

Friday, July 15th

7:30 pm
* Cinecenta Films. SUB Theatre. "Alice's Restaurant". Admission charge.

8:00 pm
Phoenix Summer Theatre. "Loot". Admission charge.

Saturday, July 16th

8:00 pm
Phoenix Summer Theatre. "Blithe Spirit". Admission charge.

Monday, July 18th

7:45 pm
Third in a public lecture series in History in Art. Dr. Partha Mitter on "Life in the Vedic Age of India". Cornett 108.

8:00 pm
Phoenix Summer Theatre. "Blithe Spirit". Admission charge.

Tuesday, July 19th

8:00 pm
Summer Music. MAC 144. Bach concert "Coffee Cantata". Admission charge.

Phoenix Summer Theatre. "When You Comin' Back Red Ryder?" Admission charge.

Wednesday, July 20th

7:30 pm
* Cinecenta Films. SUB Theatre. "Que La Bete Meure". (This Man Must Die). Admission charge.

8:00 pm
Phoenix Summer Theatre. "Loot". Admission charge.

Thursday, July 21st

3:30-5:00 pm
Petch Peeves. Students, staff and faculty welcome to see Dr. Petch in his office. Please call local 4201 for confirmation of time.

7:30 pm
* Cinecenta Films. SUB Theatre. "Catch 22". Admission charge.

8:00 pm
Summer Music. MAC 144. Repetition of July 19 performance. Admission charge.

Phoenix Summer Theatre. "Loot". Admission charge.

Friday, July 22nd

7:30 pm
* Cinecenta Films. SUB Theatre. "Royal Flash". Admission charge.

8:00 pm
Phoenix Summer Theatre. "Blithe Spirit". Admission charge.

Saturday, July 23rd

8:00 pm
Phoenix Summer Theatre. "When You Comin' Back Red Ryder?" Admission charge.

Monday, July 25th

7:45 pm
Fourth in a public lecture series in History in Art. Dr. Boris Piotrovsky on "Archaeology of the First Millennium B.C. in the Soviet Union". MAC 144.

8:00 pm
Phoenix Summer Theatre. "Blithe Spirit". Admission charge.

Tuesday, July 26th

8:00 pm
Summer Music. MAC 144. Koto Ensemble of Greater Vancouver. Admission charge.
Phoenix Summer Theatre. "Loot". Admission charge.

Wednesday, July 27th

7:30 pm
* Cinecenta Films. SUB Theatre. "Jeu de Massacre" (Killing Game). Admission charge.

8:00 pm
Phoenix Summer Theatre. "When You Comin' Back Red Ryder?" Admission charge.

Thursday, July 28th

3:30-5:00 pm
Petch Peeves. Students, staff and faculty welcome to see Dr. Petch in his office. Please call local 4201 for confirmation of time.

7:30 pm
* Cinecenta Films. SUB Theatre. "Siddhartha". Admission charge.

8:00 pm
Summer Music. MAC 144. Piano recital by Robin Wood. Admission charge.

Phoenix Summer Theatre. "Loot". Admission charge.

Friday, July 29th

7:30 pm
* Cinecenta Films. SUB Theatre. "And Now For Something Completely Different". Admission charge.

8:00 pm
Phoenix Summer Theatre. "When You Comin' Back Red Ryder?" Admission charge.

Saturday, July 30th

8:00 pm
Phoenix Summer Theatre. "Blithe Spirit". Admission charge.

Tuesday, August 2nd

7:45 pm
Fifth in a public lecture series in History in Art. Dr. David Waterhouse on "Diffusion versus indigenous growth in ancient cultures of East Asia". Cornett 108.

Wednesday, August 3rd

7:30 pm
* Cinecenta Films. SUB Theatre. "Orfeu Negro" (Black Orpheus). Admission charge.

Thursday, August 4th

3:30-5:00 pm
Petch Peeves. Students, staff and faculty welcome to see Dr. Petch in his office. Please call local 4201 for confirmation of time.

7:30 pm
* Cinecenta Films. SUB Theatre. "Slaughterhouse Five". Admission charge.

Friday, August 5th

7:30 pm
* Cinecenta Films. SUB Theatre. "Shampoo". Admission charge.

Monday, August 8th

7:45 pm
Sixth in a public lecture series in History in Art. Dr. Charles Wicke on "Olmec and Chavin: America's First Great Art Style". Cornett 108.

Tuesday, August 9th

8:00 pm
M.F.A. Practicum: Barbara Jeanne Shaw — Set and Costume Design for "Blood Wedding", by Federico Garcia Lorca at the Phoenix Theatre. (Aug. 9-13th and 15th).

8:00 pm
Phoenix Summer Theatre. "Blood Wedding". "Doctor, Doctor". One-act musical Comedy. MAC 144.

Wednesday, August 10th

7:30 pm
* Cinecenta Films. SUB Theatre. "Le Boucher" (The Butcher). Admission charge.

8:00 pm
Phoenix Theatre. "Blood Wedding". Doctor, Doctor. One-act Musical Comedy. MAC 144.

Thursday, August 11th

3:30-5:00 pm
Petch Peeves. Students, staff and faculty welcome to see Dr. Petch in his office. Please call local 4201 for confirmation of time.

7:30 pm
* Cinecenta Films. SUB Theatre. "The Fixer". Admission charge.

8:00 pm
Phoenix Theatre. "Blood Wedding". Doctor, Doctor. One-act Musical Comedy. MAC 144.

Friday, August 12th

7:30 pm
* Cinecenta Films. SUB Theatre. "Zardoz". Admission charge.

8:00 pm
Phoenix Theatre. "Blood Wedding". Doctor, Doctor. One act Musical Comedy. MAC 144.

Saturday, August 13th

8:00 pm
Phoenix Theatre. "Blood Wedding". Doctor, Doctor. One-act Musical Comedy. MAC 144.

Monday, August 15th
